- »» Groundbreaking journey to the sources of a great civilization
- »» Each episode spotlights one aspect of Ancient Egypt's secrets
- »» First doc to begin with seminal but nearly forgotten "Dynasty Zero"

PLANET Egypt

A kingdom that flourished for over 3,000 years... A civilization that produced some of the most outstanding monuments known to man... A cult of death that is perhaps the key to life and to the longevity of a culture without equal in the history of mankind... The Egypt of the Pharaohs! Few civilizations displayed as much creative and intellectual power as that of the Ancient Egyptians. What was the secret of their success? And is this secret buried in the sands of time, or can it be uncovered today with the help of modern-day technology and scholarship?

“Planet Egypt” is the first documentary series to examine the true reasons for the unparalleled success of this civilization. And it is the first documentary on Ancient Egypt to begin with the previously almost unknown “Dynasty Zero” and the founder of the first Pharaoh dynasty, King Narmer, who united the territories of Upper and Lower Egypt into a single kingdom over 5,000 years ago.

In the four-part series “Planet Egypt,” each episode sheds light on one of the vital foundation stones at the base of this extraordinary civilization. The documentary examines the unification of Egypt and the founding of the Empire under King Narmer, the rise of the Nile Kingdom to world power under Thutmose III, the religious revolution at the time of the heretic king Akhenaten, and the enormous surge in construction activity during the rule of Ramses the Great. Never before has a series on Ancient Egypt been shot on so many different locations. In addition to the major tombs and temples, the program accompanies scholars on their excavations in the Valley of the Kings, to Amarna, and the early dynastic centers of Abydos and Hierakonpolis... Dramatic re-enactments bring Ancient Egypt to life, and incredibly detailed 3D CGI reconstructs entire cities such as Thebes in their original, vibrant colors. “Planet Egypt” – embark on a journey to the sources of a great civilization!
