BIG PACIFIC

Produced by NHNZ

in co-production with PBS, CCTV9, ZDF, ZDF Enterprises, Discovery International, Channel 9 and Arte

BIG PACIFIC

The Pacific Ocean covers one third of the earth's surface. It stretches from Pole to Pole and is surrounded by 75 percent of the earth's volcanoes. It is greater than all Earth's land combined, holds half of our world's water, and hides the deepest place on our planet. It's what huge and iconic, rare and dazzling creatures beyond our dreams – or our nightmares – call home, and where creatures yet to be discovered lurk.

The Big Pacific is the ultimate frontier... and we know almost nothing about it. In our groundbreaking series, the world's best cinematographers, producers and researchers capture its most guarded secrets to share with viewers everywhere.

Over four cinematic episodes and one Making of, *'Big Pacific'* dissolves the boundaries between land and sea, moving throughout the Pacific Ocean to present a broad range of locations, species, natural phenomena and behaviours. Each episode focuses on an iconic characteristic of the Pacific: Passionate, Voracious, Violent, and Mysterious.

Filmed in Ultra High Definition, *'Big Pacific'* presents the ocean and its denizens in a way never before seen on television – exploring the monstrous to the minute; the alien to the intimate.

Episodes:

1. Passionate Pacific
2. Voracious Pacific
3. Mysterious Pacific
4. Violent Pacific
5. *Making of*
