GALA SCREENING

Titanic
MIPTV delegates are invited to the 100 Year Anniversary MIPTV Screening of Titanic, a red-carpet event taking place in the Palais des Festivals before the MIPTV Opening Night Party on Sunday, April 1.

Titanic is a four-part series created by producer Nigel Stafford-Clark and written by Julian Fellowes, marking the 100th anniversary of the maiden voyage — and the sinking — of the cruise ship Titanic.

Titanic focuses on the interaction of the people on the ship before disaster struck: the upper-class family with a suffragette daughter and warring servants; the wealthy elite of American society; the Irish lawyer and his embittered wife travelling in second class; the young cabin steward and the Italian waiter who falls for her ... all of human life is there and the viewer watches these people interact with the knowledge that most of them will not survive the voyage.

Titanic is a co-production with ITV Studios, Shaw Media, Deep Indigo Productions, Lookout Point, Sienna Films and Hungary-based Mid Atlantic Films. Distribution rights are with ZDF Enterprises and ITV Studios Global Entertainment.
