South Africa - The Land of Hope
(3 x 52 min / HD)
Distributor: ZDF Enterprises, Mainz, Germany
Genre: Documentaries / History & Biographies

South Africa - a land of extreme contrasts. With untold riches, abundant natural resources, breathtaking nature and a vibrant culture, yet it is also the land that gave the world "apartheid". Although the cruelty of this system will never be forgotten, South Africa has transformed itself into a liberal "rainbow nation" with equal citizens of all colors. This film shows how South Africa - the host of the first Football World Cup on African soil - came to be the beacon of hope that it is today.

The Antarctica Challenge
(1 x 52 min / HD)
Distributor: ZDF Enterprises, Mainz, Germany
Genre: Documentaries / Wildlife & Nature

Filmmaker Mark Terry leads an expedition to Antarctica to show us the new findings made by the world's scientific community stationed there. Findings that are both surprising and disturbing: rising sea levels, diminishing marine life, sweeping changes in weather patterns, bombardment with lethal rays due to the ozone hole... How will we be affected by what is happening today in Antarctica? How does the continent impact global weather patterns? This program delivers the facts in images of surreal beauty.

The Biblical Plagues
(3 x 52' or 2 x 47' / HD)
Distributor: ZDF Enterprises, Mainz, Germany
Genre: Documentaries / Social Issues & Science

Few stories in the Bible are as deeply ingrained in our collective memory as the description of the Ten Plagues. But are these Ten Plagues merely legend, or historical fact? Using the Scriptures as a historical source, scientists, historians and theologians can now prove that the account of the Plagues was based on actual events. Their trailblazing scientific research yields startling new theories and sheds new light on the Bible.
