“Topping ZDF Enterprises’ MIPTV slate this spring are factual series, a raw and powerful new collection of in-your-face documentary entertainment that includes forays into prison life (*Hard Time*) and into the dangerous work of repo men (*Repossessed*). Other exciting docs tackle the so-called 9/11 lie (*9/11: Science and Conspiracy*) and the history of the seas (*Dawn of the Ocean*). Buyers can also expect top-of-the-line drama in the second explosive season of *The Protectors*, the sophisticated robber caper *Jack of Diamonds* and the *Sebastian Bergman* police thrillers showcasing Sweden’s top profiler. Female audiences can look forward to love, passion, intrigue and broken hearts in need of mending in the absorbing new medical daily *Flickering Hearts*. Coming up for youngsters is the new live-action adventure film *The Hunt for Hannibal’s Treasure* and a sweetly loopy and wonderfully witty animated series about *Sherlock Yack—Zoo Detective.*”
